

ROUGH NOTES: EFFECTIVE LAND USE TESTIMONY

June 19, 2013

XI. Evaluation Of June 19, 2013 Training Workshop on *Effective Land Use Testimony*

In a nut-shell: Be sure of your facts when presenting or preparing comments. Stick to the issues, standards, and/or criteria of the land use application. Critically, testimony that does not address the issues and standards and/or criteria for approval will not be considered by the decision makers.

Overall evaluation was a successful training workshop on *Effective Land Use Testimony*. This first training could have been much more effective with advanced web publication of training resources, earlier coordination with Talent 4 Clean Air & Water coordinators, clearer expectations of large group of participants, and better presentation materials beyond handouts (see Appendix XI for more information).
