Land Status & Cadastral Records Viewer - Willamette Meridian - Oregon and Washington States

The USDI, BLM, Oregon-Washington home web page (<http://www.blm.gov/or/index.php>) has a section on "Land Survey Plats" at the bottom of the page. When you click on this sub-web page you arrive at a page entitled as follows.

Hugo's Emigrant Trails - GLO Field Survey Notes

Land Status & Cadastral Records Viewer -
Willamette Meridian - Oregon and Washington
States <http://www.blm.gov/or/landrecords/survey/ySrvy1.php>

It has information on master title plats, historical indices, survey plats and notes. It gives the user an opportunity to view information by township and range.

For example, Township 34 South, Range 6 West, Willamette Meridian is T. 34S., R. 6W., WM The township translates into 034-0S. The range translates into 006-0W. Leave the Field Order Note at the default of Boundary, Survey Year. Hit SEARCH.

Township: 034-0S Range: 006-0W The user is now on a web page of the specific township. It provides three types of information.

1. Master Title Plats, Use Plats and Historical Indices.
2. Survey Plats.
3. Field Note Records.

Historical Indices The historical indices page provides table information on the township (patent number, patent date, type of entry: homestead, donation land claim, etc., amount of acres and legal description by sub-divisions of a section).

Master Title Plat The master title/use plat page is a map of the township with the sub-divisions of the sections by the patent numbers provided in the historical indices page.

Survey Plats The survey plats page for our example township has eight cadastral survey plats. Our two GLO maps of interest and the DLC map as well as some other maps are provided here. In our example for Township: 034-0S Range: 006-0W, the first three maps are the ones we are interested in. They are the oldest

1857 DLC Map (t340s060w_002.jpg)
1894 GLO Map (t340s060w_003.jpg)

Field Note Records The index for the field note records are more difficult to use. The first six entries are survey notes for the four 1857 DLC surveys:

OR-D0030 James H. Twogood: Survey No. 37
OR-D0030 McDonough Harkness: Survey No. 38
OR-D0030 James Johnson: Survey No. 39
OR-D0030 Hiram Niday: Survey No. 40

The seventh entry is for a mining claim.

The eighth entry starts the survey notes for the GLO surveys (see Brochure 5D in Emigrant Trails Series).

Hugo Emigrant Trails Committee

Hugo is blessed with a rich heritage of historic roads, rough though they were. The *Hugo Emigrant Trails Committee* was formed to bring together all those who want to learn more about the early transportation in the area, from the casual admirer to the dedicated researcher. Its aim is to collect and record information about Hugo's emigrant trails, especially its two historic 1850s General Land Office mapped roads of the Applegate Trail, and to share this information (e.g., through *Hugo History Day*, talks, hikes, group visits, training exercises, workshops, publications, web sites, etc.).
