Josephine County Budget Message Fiscal Year 2008-09

The County is continuing with the "Budgeting for Outcomes" model, which is based on programs and service levels within the County. The budget before you today includes citizen input on services they are willing to fund, guidelines set by the Board of County Commissioners, mandates required by the State of Oregon and stakeholder support of programs. Also included in the budget is the detail on expenditure line items and a listing of personnel with classifications and compensation packages for each program. With the support of the Board of County Commissioners and the cooperation of the Elected Officials, Division Managers and Program Supervisors in the preparation of this budget, I am able to present to the Budget Committee a balanced budget as required by Local Budget Law. Although County government and the resulting Budget is complex, our goal is to provide as much transparency in government as possible and still abide by Oregon Budget Law.

Josephine County made major changes to county government in FY 07-08. Because of these changes, the majority of county government programs became self sustaining through fees, grants, and other revenue sources that did not rely on property tax and/or O&C monies from the Federal Government. Currently, no new revenue sources have been put in place or have been approved by the voters to replace the O&C monies in FY 08-09. With no replacement dollars for the approximately 12 million dollar loss of O&C funds, the FY 08-09 budget reflects additional reductions to operations and services that are not self funded.

For FY 07-08, the Budget Committee approved and the Board of County Commissioners adopted a budget that funded most county government programs at a Service Level 1, which was based on mandated and/or self funded services. After the County received a one year extension of approximately twelve million dollars of O&C monies, the Public Safety Fund (Sheriff, District Attorney and Juvenile Justice) was allotted fifty percent of the monies for FY 07-08 and fifty percent for FY 08-09. With six million dollars of O&C monies and a transfer of 4.8 million dollars from the General Fund, Public Safety was able to continue to provide services (with some reductions), that were comparable to the prior year. For FY 08-09, however, the General Fund has limited monies available to transfer and will reduce the transfer from 4.8 million to 3 million dollars. This will require additional reductions in service provided by the Offices/Division of Public Safety.

Because of challenges faced by the County, the Board did not replace the Chief Operating Officer position. A hiring freeze was put in place in February, 2008 to mitigate the potential reduction in personnel because of the loss of sustainable funding for the County. In the budget before you, new proposed positions include a "Justification" paper on the purpose of the position and how it will be funded in future years.

Fund Structure Changes

Changes include:

- 1. Offices, Divisions, and Programs that provide similar services and rely on common funding sources remain grouped together in one fund such as General Fund and Public Safety.
- 2. The Public Works Fund major funding source continues to be State Gas Tax dollars. Public Works will lose approximately \$2 million in O&C revenues for roads in FY 08-09.
- 3. Funds, such as Fair, Parks and Public Health Funds, continue to be required to be self sustaining from fees, grants or other revenue sources outside of the General Fund. Funds that are for dedicated purposes are required to be shown as individual funds in the Budget Book.
- 4. In FY 08-09, the County, as the Mental Health Authority, will continue to provide oversight to the mental health programs contracted to non-profit providers. The County will also maintain the Alcohol and Drug programs at the county level. These programs are funded by State grant dollars.
- 5. Fund 290, The Regional Hospital Fund provided state monies to pay for hospitalization of indigent mental health clients for six counties in southern Oregon. The monies had been administered by the County for several years. In FY 07-08, the six County members decided to move the administrative services and monies to a regional non profit provider, Jefferson Behavioral Health. This fund will be closed in FY 08-09.
- 6. The centralized overhead of the County continues to be shown in Internal Service Fund 401. Current overhead charge is 8.5% of the personal service plus material & services budgets of the operating funds. Programs for maintenance of county facilities and fleet continue to be directly charged to the budgets that utilize the services and their budgets are shown in Fund 402. The Insurance Fund assessment was reduced substantially as the County moved from being self insured to first dollar coverage.
- 7. Property sales and capital expenditures for facilities are shown under the Property Reserve Fund. The Equipment Reserve Fund receives revenues from fleet replacement assessments and direct monies from funds that require capital purchases of \$5,000 or more.
- 8. With the major format change in the Budget in FY 06-07, prior year budget information is included in the Historical Section.

Impacts

The proposed Budget shows the continuing impacts of a Service Level 1 budget, both in dollars and positions (FTE's) budgeted. The Offices/Divisions and Programs that were reduced in FY 07-08 will continue to operate under those constraints. The Public Safety Fund that relies on General Fund transfers and O&C dollars will have service reductions in FY 08-09. The Public Safety Fund includes the Office of Sheriff, District Attorney, and Juvenile Justice Division. The Fund's main revenue source had been O&C monies of approximately \$12 million. With the one year extension in FY 07-08, fifty percent of the monies were set aside to fund FY 08-09. The General Fund will transfer \$3 million to the Public Safety Fund in the proposed budget. This is a reduction from the \$4.8 million dollar transfer in FY 07-08.

As the savings from previous year's reductions in General Fund are depleted by transfers to Public Safety, the General Fund contingency will drop to less than 3 million dollars. These carryover monies are used to cover payrolls and other costs until property tax and other revenues arrive in November.

The libraries will continue to be closed, but the \$300,000 matching grant is included in the General Fund budget if a non profit can raise adequate funds to provide library services.

Fund 210, Grants Project Fund is mainly a pass through fund for community Development Block Grants, Title III monies from O&C and Economic Development lottery dollars. With the loss of O&C monies for Title III programs, the County has enough reserves to fund programs such as Search and Rescue and forest fuel reduction activities for approximately three more years after FY 08-09.

The Personnel section includes the Organizational chart with the proposed positions county wide. Current salary tables for Elected Officials and Non Union (includes both management, professional, and confidential employees) and the current tables for the four Unions are included. Union contracts for AFSCME and SEIU/OPEU have been approved as of July 1, 2008. FOPPO and the Sheriff's Association are still in bargaining. Both contracts have the ability to go to binding arbitration (decision made by a third party) because of the inability of the members to strike.

Conclusion

Josephine County is at a turning point in its history. Without a sustainable funding source for public safety and the criminal justice system, the County will be greatly impacted. The County currently has approximately thirteen million in available dollars (including contingencies) to fund services that are not dedicated and/or required by law. In FY 09-10, if the County utilizes every dollar available, the available funding drops to approximately six million dollars but leaves no monies for General Fund contingencies.

It is in the best interest of Josephine County and its citizens, that we work together to find a long term sustainable way to fund essential county government services.

Rosemary Padgett, Budget Officer April 17, 2008

Assumptions used:

The projection for 2009-10 is equal to 2007-08, adjusted for planned changes in beginning fund balances, capital projects and actual debt service obligations. O & C funding is assumed not to be reinstated or replaced.

The projection for the next 3 years assumes a 3% inflation factor, adjusted for planned changes in capital projects and actual debt service obligations.

Unappropriated ending fund balances are projected not to change.

JOSEPHINE COUNTY Adopted Budget Memorandum About Historical Data 2008-09

In September 2005 and again in November 2006, the Board of County Commissioners reorganized the County's management structure. The current organization chart is included in the Personnel section of this budget book. The 2006-07, 2007-08 and 2008-09 budgets reflect the new organization. They also reflect the fundamental change in the fund structure and budget categories which has been done with the purpose to bring greater clarity to the County's budget for the Budget Committee and the County's citizens. Many funds have been combined to substantially reduce the number of funds, and budget categories within the funds are broken down by department and program, rather than by expenditure type (Personal Services, Materials and Services, etc.), as in the past. Accordingly, 2005-06 historical data in the old format is presented in a separate Historical Budget Section rather than with the 2006-07, 2007-08 and 2008-09 budget data because it is not directly comparable.

In addition, funds that were discontinued in the 2007-08 and 2008-09 budgets are listed in the Historical Budget Section.
